

Resident Spotlight

Meet Jim (aka The Teddy Bear Man). A few years ago Jim gave a little teddy bear to a small child. His heart filled with joy as he watched the child hug the little bear tightly to their chest. The joy he received from this small act of kindness inspired him to buy even more bears to give away to the children of his family and friends. Before long Jim realized

that even adults could benefit from the love such a little bear could give, so he started to give teddy bears to some of the staff. When he saw how the staff reacted to receiving such a precious gift he decided to start giving them to some of the residents. He specifically wanted to give his bears to residents that were really struggling in hopes of bringing a smile to their face. To date Jim has given away close to 500 teddy bears and has no plans on stopping any time soon. Jim's heart is as big and deep as an ocean. Thank you Jim for all the love and kindness you have given to so many people. We are so glad you are here at Emerald Bay, Jim!

Resident Testimonial

Dot R.

“I'm a new resident here at Emerald Bay and have been living here for less than 5 months. I am still finding my way around but have found the aides and staff very friendly and helpful. I enjoy exercise class, the occasional concert, the hair salon, and getting my nails done. Happy hour is my favorite activity each week! I am hoping to make more friends here as I am here longer!”

Physical activity is a simple and effective, non-drug way to relieve arthritis pain. Being physically active can reduce pain, improve function, mood, and quality of life for adults with arthritis. Regular physical activity can also reduce your risk of developing other chronic diseases, such as heart disease and diabetes. It can help you manage these conditions if you already have them.

Stay as active as your health allows, and change your activity level depending on your arthritis symptoms. Some physical activity is better than none. If you have questions, concerns or want to learn more about creating an exercise program to minimize the effects of arthritis, contact Genesis Rehab Services at 920-600-8583.
