“I love living at Emerald Bay. Everyone is so nice and friendly. The staff is great at taking care of me, including the therapy department. The food is great, and they have lots of activities to keep me busy. I especially enjoy Bingo and putting puzzles together.”

Genesis Therapy

This month we celebrate Better Hearing and Speech Therapy month! Emerald Bay provides onsite speech therapy services. At least 46 million people in the U.S. have a hearing or other communication disorder that affects how they engage with their environments. These disorders can occur at any age and in all ethnic and socioeconomic groups.

Hearing loss can be present at birth, happen instantly, or, most commonly, develop over time from excessive noise exposure, aging, or a combination of these factors. Approximately 15% of American adults (37.5 million) report some trouble hearing. This rate increases to 50% among those who are 75 and older.

Individuals with untreated hearing loss may become isolated from their families and communities. In older adults, untreated hearing loss is also associated with higher total health care costs, increased risk of dementia and cognitive decline, falls, depression, and lower quality of life. Hearing aids and other assistive devices can help people with hearing problems reconnect to others, but only about one in four adults (ages 20 and over) who could benefit from hearing aids has ever used them.

Please contact Genesis Rehab Services to learn more about hearing and speech concerns at 920-600-8583.

RESIDENT SPOTLIGHT

Donna was born and raised in Chippewa Falls, WI. She is excited to say that she shares her birth year with Shirley Temple and Mickey Mouse! After Donna graduated, she worked for short time at Wal-Green's, and then started working for the telephone company. At that time you could transfer to any telephone company you wanted to in the US. Of all the places she could have gone, she and her two friends chose Green Bay because it was a smaller, older city with a lot of history. She then met and married her husband, George. After a few years they began their family of three, which included twins! Donna and her husband loved to travel up north to enjoy the great outdoors as well as other places, including Hawaii. She was also active in her church and sang in several choirs. Donna loves to knit, crochet, read, play cards, and go out with friends. We are so glad you are here, Donna!
